Visions Film Highlights the Need for Educational Development in Sri Lanka

This summer, a documentary filmmaker from [Lonely Tree Productions](#) accompanied the Visions volunteer teams in India & Sri Lanka to capture the lives of the children we work with, the communities they live in, and the educational projects we have developed on their behalf. We are delighted to be able to share with you our **first video** highlighting our work in South Asia! By following Danusha, a young woman in Eastern Sri Lanka, whose life and education has been repeatedly disrupted on account of **war and natural disaster**, this video highlights one of Visions' many efforts to educate, uplift, and empower some of the most vulnerable youth in war-affected regions of Sri Lanka through after-school programs and other support.
